

## LIVING SOILS EXTRAVAGANZA! Build Soil. Build Community.

### SOIL IS ALIVE!

**Saturday, March 2nd:** 1-4pm, WildHeart Farm, Rimrock, AZ

**Instructor:** Kate Watters

Kate Watters of Wild Heart Farm will share strategies for boosting soil health--including: no-till methods, cover crops, testing and responding, homegrown amendments and fertility (KNF and biodynamic).

**Cost:** Suggested donation (pay what you can) \$35-\$60; Free to enrolled NAU Permaculture Students, space limited.

**Register:** <https://wildheartfarmaz.com/events-2>

### SOIL SUPERHEROS COME TO LIFE!

**Friday, March 29:** 4pm-6pm, NAU Geology Building #

**Instructor: Eli Bajalia** Join us in the lab to learn more about the science of living soils! Participants will learn about how to build soils through a 30-40 minute lecture followed by hands on learning in the lab. Students will learn to identify fungi and bacterial levels using a microscope and discuss what those results mean for growing more productively in the garden.

**Cost:** Suggested Donation (pay what you can) \$20-\$40; Free to enrolled NAU Permaculture Students, space limited.

**Register:** <https://forms.gle/HEq4Pb9xHjuZs5ev8>

### FEED THE WORMS (and soil life!)

**Saturday, March 30:** 1pm-4pm, Orchard Canyon Lodge, Oak Creek Canyon, Sedona

**Instructor: Eli Bajalia**

Learn how to develop your own microbial inoculants for use with your seed starts and in the garden. Participants will review the history of soil amending practices at Orchard Canyon Lodge and learn about different strategies for continuing to build healthy soils for both annuals and perennials.

**Cost:** Suggested Donation (pay what you can) \$35-\$60; Free to enrolled NAU Permaculture Students; space limited.

**Register:** <https://forms.gle/21XFPgR2R7wU8b3n6>

**Perma blitz @ McAllister Community Ranch, City of Flagstaff Urban Farm:  
April 20: 9am-3pm**

Help us transform our learning into practice at the City of Flagstaff's first Urban Farm site! With a critical mass of volunteers, we are going to get the early steps of turning this dream into a reality by repairing fences, tapping the rainwater potential, and

building soil. Participants will learn skills in sheet mulching, rainwater harvesting systems, and fence building and repair.

Cost: FREE, donations welcome in the form of tools, seeds, leaves, compost, rocks, soil etc. Please BYO tools, if you have them!

Register: <https://forms.gle/vaqCasMui2yxbkEEA>
